PROFILE

An Information Systems student passionate about technology, product development, and problem-solving. My experiences in developing digital solutions and leading student initiatives have taught me to understand problems from different perspectives, identify people's needs, and turn ideas into practical solutions. With a growth mindset, I embrace challenges, learn from every experience, and continuously improve to create meaningful solutions that make a positive impact.

EDUCATION

Universitas Multi Data Palembang

Palembang, Sumatera Selatan, Indonesia

Bachelor of Information Systems

2023 - Present

Cumulative GPA: 3.84/4.0

EXPERIENCE

Asah by Dicoding - Supported by GoTo

Palembang, Sumatera Selatan, Indonesia

AI Full-Stack Web Developer Learning Path

August 2026 - Present

- Developed technical and professional capabilities through an AI Full-Stack Web Developer learning path, applying React, JavaScript, and AI integration while strengthening growth mindset, collaboration, time management, and problem-solving skills.

PT PLN (Persero) UID Sumatera Selatan, Jambi & Bengkulu

Palembang, Sumatera Selatan

Full-Stack Web Developer Intern - Planning Division

June 2026 - August 2026

- Developed an internship attendance information system integrating face recognition, contributing to frontend, backend, database, and system functionality as part of a development team.
- Supported data archiving and translated operational needs into practical digital solutions within the Planning Division.

PT Kereta Api Indonesia (Persero) Divre III Palembang

Palembang, Sumatera Selatan

Web Developer Intern

January 2026 - March 2026

- Improved an existing document management system by implementing role-based access and CRUD functionality for document and employee management.
- Conducted Black Box Testing to evaluate system functionality and gather insights on user satisfaction.

PROJECT

SIMAGANG - Internship Attendance System

Full-Stack Web Developer | PLN UID Sumatera Selatan, Jambi & Bengkulu

- Developed an internship attendance system designed to streamline participant attendance through face recognition and location verification, contributing as a Full-Stack Web Developer within a team and implementing the system based on operational requirements. Tech Stack: Laravel, PHP, MySQL, JavaScript, Face Recognition, GPS/Location Verification.

KAI e-Dokumen - Digital Document Management System

Full-Stack Web Developer | PT KAI Divre III Palembang

- Developed a digital document management system to address limitations in the existing system by implementing role-based access control, CRUD functionality, employee management, and centralized document administration, followed by Black Box Testing to evaluate functionality and user experience. Tech Stack: Laravel, PHP, MySQL, Bootstrap, JavaScript, REST API.

KostKita

Backend Developer

- Developed backend services for a web-based boarding house platform, building REST APIs for registration, authentication, login, and boarding house data retrieval, while implementing authentication and authorization for secure data management. Tech Stack: Angular.js, Express.js, Node.js, MongoDB, REST API.

Learnify - Gen Z Microlearning Platform

Product Management and UI UX Designer

- Designed a Gen Z-focused microlearning platform that combines bite-sized learning, AI assistance, gamification, progress tracking, and customizable avatars, focusing on user needs and creating an engaging learning experience through user flows, interface design, and interactive prototypes. Tech Stack/Tools: Figma, UI/UX Design, Prototyping, User Flow, AI Concept.

Recycle Waste App Zero to Hero

Product Management and UI UX Designer

- Designed and managed a digital waste recycling solution by identifying user needs, defining product direction, designing user flows and interfaces, and developing an interactive prototype to encourage more accessible and engaging waste management. Tools: Figma, Product Management, UI/UX Design, Prototyping.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Senat Mahasiswa Universitas Multi Data Palembang

Palembang, Sumatera Selatan
